

## RIDUZIONE DELLA SAU IN PROVINCIA DI VITERBO: CRISI DEL SETTORE PRIMARIO O ESPANSIONE DEI COMUNI?

Lidia Scarpelli<sup>1</sup>

### ABSTRACT

Among the provinces of Lazio, Viterbo has a strongly agricultural connotation. Despite the transformations that have pervaded it in the last 50 years, this character has maintained itself, accentuating the distances on the residents' consistency and on the use of the land for agricultural productive purposes among the areas most suited to monocultures and more accessible to Viterbo and Rome, and the innermost areas.
